

About Us

[Conscious Universe Productions Incorporated](#) with offices in St. Paul, Minnesota and Denver, Colorado is a cooperatively run and community owned Radio, Television, Internet, and Live Event Production and Management Public Benefit Corporation with the sole purpose of insuring that grassroots related, community enhancing, and independent productions with the purpose of expanding human consciousness become a reality.

Certified to meet rigorous standards of social and environmental performance, accountability, and transparency, the team of content creators, educators, writers, digital artists, animators, filmmakers, designers, event experts and other production related professionals band together to engage the mission of reviewing potential media projects to deem them necessary for the public to experience.

CUP sanctioned projects are presented to different independent producers who work to ensure that some piece of initial media is produced to represent the project's core while largely remaining in the hands of the creators.

Position Description

Digital Design Interns assist with the design and layout of promotional material, internet content, and communication correspondences associated with CUP and its facilitated media projects. Under the guidance of Task Coordinators from our Providence Team in conjunction with the Wabi-Sabi Art & Design Team, they will work to develop quality artistic branding solutions that capture the symbolism and meaning that the creators wish to reflect in their images and materials.

Responsibilities:

- Assist Wabi-Sabi Team in the production and design of website content, product graphics, logos, online memes, banners, ads, email templates and marketing material related to overall CUP operations and its associated projects
- Translate and render drawings into digital products for reproduction
- Work with multiple Teams to develop digital materials to be used for various CUP facilitated projects and online campaigns
- Ensure consistency of brand across digital products
- Perform other design duties as assigned

Desired Skills and Experience:

- Understanding basic digital design principles

- Experience with different color palettes and schemes
- Some experience working with Teams
- Strong portfolio of collaborative and individual design work
- Familiarity with traditional printing and graphics and with digital design software like Adobe Design Suite
- Good professionalism, verbal, written, listening and communication skills
- Well organized with strong time management skills and must be detail oriented
- Possess a cell phone, transportation, and personal computer
